

# LIQUID HAND SANITIZER

ISOPROPYL ALCOHOL ANTISEPTIC 75%

210

## PRODUCT TYPE:

**FLEX Liquid Hand Sanitizer™** is a concentrated isopropyl alcohol antiseptic, to be used to help stop the spread of germs when water and soap are not readily available.

## PRODUCT FEATURES:

- Isopropyl alcohol antiseptic 75%
- Topical solution
- Convenient and fast drying
- A liquid product, not a gel, that is easy to use in spray and spout applications.
- FDA registered product
- Proudly made in the United States

## PRODUCT PERFORMANCE:

It is important to protect yourself and those around you from the spread of germs, even when water and soap are not readily available. FLEX Liquid Hand Sanitizer is manufactured according to the World Health Organization (WHO) and Centers For Disease Control (CDC) recommended alcohol-based hand sanitizer formula with 75% isopropyl alcohol. With this recommended formula, according to CDC, laboratory data demonstrates that “the active ingredients in CDC-recommended alcohol-based hand sanitizers, inactivates viruses that are genetically related to, and with similar physical properties as, the 2019-nCoV.” It is convenient and fast drying, making it a perfect tool in any institution or workplace to help stop the spread of germs and protect the overall health of our communities.

(Centers for Disease Control and Prevention. (March 2020). CDC Statement for Healthcare Personnel on Hand Hygiene during the Response to the International Emergence of COVID-19. US Department of Health and Human Services.)

**FLEX Liquid Hand Sanitizer is a U.S. Food and Drug Administration (FDA) registered product.**
