SAFE & EFFECTIVE CLEANING CHEMISTRY

FLEX 1340™

BUILT POWDER LAUNDRY DETERGENT

FLEX 1340™ is a concentrated, heavy-duty alkali detergent combination formulated to remove the heaviest soils from clothing and linen. It has powerful alkalinity and robust detergent activity to attack the most stubborn types of soils including grease, oil, carbon, ink, food, blood, and much more.

- High alkalinity and high pH, with quality surfactants, water conditioners and anti-redeposition agents
- Superior soil and stain removal on all types of linens, including grill towels, shop towels, inkers, lab coats, butcher coats, aprons and napkins
- Can also be used as a booster detergent for any application
- Effective in hard water and fast cycle washing

USE INSTRUCTIONS:

Many factors affect performance. The following are guidelines only. Please consult your Street's representative for the optimal products, dosages, and programs for your specific cleaning and business needs.

TYPICAL DOSAGE:

4 to 6 oz. per 50 lb of load
(or 50 to 75 g per 10 kg of load)

For professional laundry use only. Before using any chemical product, review the Safety Data Sheet (SDS) for safe handling and proper disposal. Follow garment care label and garment fiber content and construction to select appropriate washing and drying settings and finishing methods. If colorfastness is questionable, test garment in a hidden area. The following are guidelines only. Please consult your Street's FLEX representative for the optimal products, dosages, and programs for your specific cleaning and business needs.
