

COMMAND™

Fabric Reclaimer & Heavy-Duty Degreaser

19

COMMAND removes stains like makeup, oils & lotions, heavy grease stains and more!

Info

ADDS POWER TO YOUR PROCESS™

No matter the laundry process and products being used, adding **COMMAND** to your system ensures garments and linens come out clean the first time. When paired with the patent-pending **ReCLAIM™** process, it can also rescue items that would otherwise be prematurely discarded—enhancing sustainability while reducing cost.

From retail laundry to hospitality to industrial applications, **COMMAND** delivers powerful performance—reduces recleans significantly, saves on inventory replacement costs, improves operational efficiency, and minimizes environmental effect by reducing textile disposal.

MAKES AN IMPACT IN ANY LAUNDRY OPERATION:

- ✓ **HOTELS & VACATION RENTALS:**
Removes makeup, tanning oils, and lotions from towels, sheets, and pillowcases.
- ✓ **INDUSTRIAL LAUNDRIES:**
Tackles grease-soaked workwear, shop towels, gloves, and PPE with ease.
- ✓ **PARTY RENTALS & HOSPITALITY:**
Eliminates oil stains from table linens and chair covers, restoring them to pristine condition.
- ✓ **RESTORATION:**
COMMAND'S organic solvent action helps remove the most difficult soot.
- ✓ **RETAIL LAUNDRIES:**
Lifts tough grease and oil that can trap other soils and prevent items from coming clean the first time.

BEFORE

AFTER

Makeup and Tanning Oil Stained Towel

A PRODUCT OF **STREETS®**

FLEX®

USE INSTRUCTIONS:

For professional laundry use only. Read Safety Data Sheet (SDS) before using this product. If color fastness is questionable, test fabric in a hidden area. Use only as an additive, do not spray. Do not add more **COMMAND** than recommended, as excessive foaming may occur. The amount of **COMMAND** recommended is based upon machine capacity and water level; not on the weight of the load or amount of items.

ReCLAIM™ CYCLE – SAVE ITEMS FROM AN UNTIMELY DEATH

For fabrics that didn't come clean the first time, use the patent-pending ReCLAIM™ process to rescue them.

- In hot water 140° F (54° C) and above: Use **COMMAND**™ at a rate of 2 oz per 50 lbs (or 25 mL per 10 kg) of machine capacity.
- In water less than 140° F (54° C) : Use **COMMAND** up to 4 oz per 50 lbs (or 50 mL per 10 kg) of machine capacity.
- For best results: Use in conjunction with **FLEX® PREMIUM PLUS™** powder detergent or other high performance laundry detergent at a rate of 8 oz per 50 lbs (or 100 g per 10 kg) of machine capacity.
- Batch using a low water level for **90 minutes or more** depending on soil level.
- Follow by **3-4 rinse cycles**.

REGULAR PROCESS – PREVENT RECLEANS:

*By adding **COMMAND** in a prewash in all loads, you will often prevent or reduce the need for a ReCLAIM™ cycle in the first place.*

- Use **COMMAND** at a rate of 1-2 oz per 50 lbs (or 10-25 mL per 10 kg) of machine load capacity.
- Add to a **dedicated prewash step** prior to the normal cleaning cycle. For best results, **adjust prewash to 4 minutes** or more.
- Use a **medium water level**.
- The hotter the water the more efficient the stain removal will be.
- **One rinse** with plain water.
- **Launder** as usual.

USAGE IN SMALLER WASHERS

COMMAND can be used in ANY laundry system. Most larger capacity home type washers are 20-25 (9-10 kg) lbs capacity. See charts below for recommended dosages.

ReCLAIM™ CYCLE oz/lbs				Regular Process oz /lbs		ReCLAIM™ CYCLE Metric Measures
Machine Capacity (lbs)	COMMAND 140°F & up	COMMAND Below 140°F	PREMIUM PLUS™ Powder	Machine Capacity (lbs)	COMMAND	54°C & up: add 25 mL of COMMAND per 10 kg of machine capacity Below 54°C: add 50 ML of COMMAND per 10 kg of machine capacity For Either: add PREMIUM PLUS at a rate of 100 g per 10 kg of machine capacity.
10 lbs	½ oz	1 oz	1 ⅓ oz	10 lbs	¼ - ½ oz	
20 lbs	1 oz	1 ⅓ oz	3 oz	20 lbs	½ - 1 oz	
30 lbs	1 ⅓ oz	2 ½ oz	5 oz	30 lbs	¾ - 1 ¼ oz	
50 lbs	2 oz	4 oz	8 oz	50 lbs	1-2 oz	Regular Process Metric Measures Add 10-25 mL per 10 kg of machine capacity
